

CSO Solicitation #2112 REVISIONS/CLARIFICATIONS
Construction Inspection Project No. 92-531/622/627

Please be advised that the following is being provided to clarify the Department's January 22, 2010 solicitation for construction engineering and inspection services on Project #92-531/622/627:

Key personnel labor classifications:

Resident Engineer
Assistant Resident Engineer (Structures)
Assistant Resident Engineer (Civil/Roadway)
Senior Inspector (Concrete Piles/Drilled Shafts)
Senior Inspector (Civil/Roadway)
Senior Inspector (Structures)
Senior Inspector (Traffic)
Project Scheduling Coordinator
Office Engineer
Assistant Office Engineer (Site Manager Recordkeeping)
Assistant Office Engineer (Contract Manager Recordkeeping)

- It is expected that the Prime Consultant will provide a project manager to provide general oversight, coordinate home office support, and ensure the quality management of the construction engineering work on this project.
- The Resident Engineer shall have at least five of the last ten years of experience in a lead capacity in the construction of a complex highway to highway interchange having a value greater than \$50 million and an ADT in excess of 100,000. *(The original stated interstate to interstate...)*
- The original solicitation called for two Senior Inspectors (Civil/Roadway) – Only one is required.
- The Senior Inspector (Traffic) must meet the minimum requirements in the Pamphlet for a “Senior Inspector” and have a minimum of five years experience on a highway/bridge construction project with an ADT in excess of 100,000. In addition, this employee shall be certified as a Traffic Control Supervisor by ATTSA.

All inquiries regarding the original solicitation and these clarifications shall be directed to Ms. Simone Cristofori of the Consultant Selection Office at (860) 594-3017.
